The great need is to supply the population with water, and the Oregon Legislature is doing its best to meet this need. The water supply of the town is inadequate, and the Legislature has enacted a law to provide a water supply. The water supply is to be provided by a system of canals, and the Legislature has appropriated $50,000 for the construction of the canals. The water supply is to be conveyed to the town by a series of canals, and the Legislature has directed that the canals be constructed in a manner that will ensure a reliable water supply. The canals are to be constructed of stone, and the Legislature has directed that the stone be quarried in the vicinity of the town. The canals are to be constructed in such a manner that they will be impervious to water. The Legislature has directed that the canals be constructed in such a manner that they will be impervious to water.
