The Republican Party and its Plan.

The platform adopted by the Kansas Republican Convention is the basis on which the Democratic party of Oregon proposes to conduct the elections in that State. It is not to be supposed that in the course of a few months after the convocation of the new legislature, the enthusiasm of the people, the public pressure, and the fact that the Republican party is in the ascendant, have not had considerable influence on the resolutions. The present movement is one of extreme necessity and importance, and the Republican party is the only one that can act with success in the face of such circumstances. The party that is in the ascendant is the Republican party, and the party that is in the ascendant is the Democratic party. The platform is now the basis of the Republican party, and the platform is the basis of the Democratic party. The party that is in the ascendant is the Republican party, and the party that is in the ascendant is the Democratic party.
