VOL. III.

CORVALLIS, OREGON, SATURDAY MORNING, JUNE 15, 1861.

No. 19.

Correspondence.

The Governor of Oregon has been in possession of a report from certain prominent men who have recently been in the State, and have furnished him with information and advice concerning the public affairs of the State. The Governor has made use of this report in his message to the Legislature, as well as in his address to the people of the State.

The report contains a number of recommendations, some of which are of great importance. Among them are:

1. The necessity of improving the Pacific Railroad, by extending it from the mouth of the Columbia River to the interior of the State.

2. The establishment of a system of public schools, free and open to all children.

3. The encouragement of agriculture and industry, by providing for the support of schools of agriculture, and by giving aid to agricultural societies.

4. The promotion of commerce and navigation, by improving the navigation of the Columbia and Willamette Rivers, and by extending the fisheries along the coast.

5. The establishment of a system of public parks and reservations, for the benefit of the people and the enjoyment of nature.

The Governor has expressed his approval of these recommendations, and has promised to take such steps as may be necessary to carry them into effect.

The Legislature has also met, and has received with pleasure the Governor's message, and has promised to give it due consideration.

I am happy to say that the condition of the public affairs is improving, and that the measures which are being taken are likely to be successful. Change of Publication.

Having decided to make the arrival of the July express, we have determined to begin publication on the Ist. day of July. This is the only way we can avoid a break in the publication of the Union, which, we believe, will not be very desirable to either of the parties interested. We trust our friends will give us a fair trial, and that we shall meet with the same favor we have heretofore enjoyed.

The Indian Union Meeting.

This week we shall have a great many of the Indian chiefs and people of Oregon in our triennial meeting, and we shall have a great deal of business to do. The chief objects of the meeting will be the introduction of a system of land surveying, and the establishment of a school for the education of the children of the Indians.

The Chinese Race.

The Chinese are a very peaceable and industrious people. They are very fond of learning, and are very willing to work for the benefit of the United States. They are very much in need of a school for the education of their children, and they are very willing to pay for the expenses of the school.
