Is this Book available near me?

**WorldCat** lists books that are available at other libraries in the United States, and sometimes in other countries. If a book you want is not listed in the OSU Libraries catalog or at a Summit library, you might want to check WorldCat to see if the book is available at a library near you. Generally, it will be faster to get the book from a local library or you can at least review it while you wait for the OSU copy to arrive.

Go to [WorldCat.org](http://worldcat.org)

Type in the title of the book or keywords to describe your topic:

![WorldCat search interface](image)

Click on title of the book or item you want. You can also look to see who has other editions of the book by clicking on the **View all editions and formats** link.
To see if OSU has the item, click on FindIt@OSU. If you want to know if the book is in a library near you, scroll down and enter your zip code.

If there is no copy in your area, you can place an Interlibrary Loan request with the OSU Libraries and we’ll borrow it for you from another library and mail it to you. You just need to mail it back to us.
